

# Modern Investigative and Intelligence Solutions Built for Your Mission

## Connecting Data, Decisions, and Operational Outcomes

Organizations and agencies today manage growing volumes of information, multiple teams, and complex workflows. Too often, that work is spread across disconnected systems that create inefficiency, increase complexity, and limit visibility.

Kaseware helps solve complex investigations quickly and efficiently by bringing investigative data, personnel, and workflows into a single system. Built to support public safety, government, and private sector teams, Kaseware helps organizations and agencies improve coordination, reduce errors, maintain compliance, and uncover critical insights.

## Key Capabilities

### Unified Investigations, Intelligence, and Security

Collect, analyze, and connect data, teams, and operations in one connected platform, reducing the cost and complexity of managing multiple systems.

### Configurable Workflows Without Custom Development

Tailor workflows and processes to your mission with low-code and no-code configuration, so the platform works the way your agency or organization works.

### Actionable Intelligence for Faster Outcomes

Use advanced analytical tools and intelligent insights to uncover connections, accelerate decision-making, and help teams focus more time on impactful work.

## Key Benefits

- **More Than Case Management:** Kaseware is a complete investigative solution for investigations, intelligence, and security.
- **Tailored to Your Mission:** Customize the platform to your unique objectives, workflows, and operational requirements.
- **Powered by One System:** Consolidate teams, operations, and data into a single, connected platform for greater efficiency, clarity, and collaboration.
- **Trusted by Those Who Know:** Founded by former Federal Bureau of Investigation (FBI) Special Agents, Kaseware is built by professionals who understand investigative work firsthand.

## Why Kaseware?

Kaseware was created to provide organizations with a better way to manage investigations, intelligence, and security operations in one unified platform. Our team brings deep experience across law enforcement, intelligence, and mission-driven operations, helping customers solve complex challenges with modern technology.

From government agencies to global enterprises, Kaseware adapts to different missions, scales with organizational growth, and delivers long-term value. The result is a secure, configurable, and connected platform that helps organizations work more efficiently, make better decisions, and achieve stronger outcomes.
