

Oxygen Review Center

*Share the right data with the right people at the right time.
Real-time collaborative data review.
Corporate investigation. eDiscovery. Criminal investigation.*

Our collaboration solution was created for enterprises, law firms, service providers, law enforcement, and government agencies to streamline workflows from investigators doing technical work to non-technical reviewers and stakeholders reviewing the data.

Oxygen Review Center enables:

- Remote work any time, anywhere with simultaneous access for multiple users.
- Simple, easy-to-use interface designed for non-technical users.
- Secure role-based data access with cloud or local server behind a firewall.

Who we are.

Driven by Expertise, Powered by Innovation.

We are a U.S.-based, privately held company of experienced practitioners — led by our CEO and fueled by a team of experts — dedicated to creating the most powerful tools that uncover insights and reveal the truth within data. Serving enterprises, law firms, service providers, law enforcement, and government agencies across 150+ countries, we empower organizations to make data-driven decisions with confidence.

Reduce investigation backlogs through real-time collaboration
