# Lightweight solution for eDiscovery

**Highly Secure:** the typical setup for any eDiscovery solution is to either host the software in your own data center or use the service through a provider in the cloud. Either way: the range of potential access vectors is large – the eDiscovery in a Box solution does not require any intra- or internet connectivity. The best risk mitigation is to avoid the risk. The airtight configuration is best practice for highly sensitive investigations.

**Plug and Play:** If you are talking about eDiscovery, then you are talking about days or sometimes even weeks until you can start with your investigative work – be it on premise in your own data center or be it with a service provider. There is no installation or configuration work required for eDiscovery in a Box. Power On. Done.

**Hand Luggage:** our solution is so small that it fits in a protective Pelican case that can be carried onboard.

## eDiscovery in a box Benefits

- Completely decoupled from intra- and internet (airtight)
- Fully functional eDiscovery solution (incl. processing)
- No installation required (pre-installed/pre-configured)
- Self-healing containers for uninterrupted operations
- Hand Luggage with a protective Pelican case

# Specifications

- Farsight's in a Box supports at least 1.5TB of case data storage
- Up to 75 Users can use the system concurrently, working on cases

Component	Specs
CPU	AMD Ryzen 9 7950X 4.5 GHz (16 Cores, 32 Threads), max 5.7GHz
RAM	96 GB
GPU	RTX 2080 Ti or equivalent
Storage 1	1.5TB NVME (mirrored/Raid 1)
Storage 2	2TB SATA SSD
Connectivity	Gbit LAN 2x2 Typ-C (20Gbps) 1x USB 3.0 Typ-A (5Gbps)
Size	343 x 153 x 218 mm

## Key Take Aways

### **Security**

Designed with cloud independence in mind adhering to highest security requirements preventing unnecessary data exposures.

### **Performance**

Lightning-fast processing thanks to memory- and CPU efficient code.

### **Plug & Play**

The eDiscovery Appliance is a true Plug Play solution: Power-On and discover.

### **Portability**

Only solution on the market that fits in a IATA compliant protective carry-on case.
